Rotor "Clubs" Available:

- Frame 3/2
- Frame 5/2
- Frame 5
- Frame 6
- Frame 9E

Benefits:

- Reduced down time
- Reduced inventory
- Reduced capital expenditure
- Increased availability/reliability

MJB offer owners and operators of GE Frame gas turbines an option to become a member of a select "club" which offers the supply of our stock turbine and/or compressor rotors for emergency shutdowns on an exchange basis.

The objective is to provide a unique service at competitive prices and to help minimize downtime in the event that a rotor change-out is necessary.

Membership is limited to ensure availability to our pool customers. Access to The Rotor will be exclusive to the fee paying members only.
